PROFESSIONAL SUMMARY

Junior Front-End Developer specializing in React.js with hands-on experience building responsive web applications, real-time collaboration platforms, and payment-integrated systems. Skilled in JavaScript (ES6+), Redux, Zustand, React Query, SignalR, and modern UI frameworks. Experienced in developing component-based interfaces, integrating REST APIs, and delivering user-focused solutions within collaborative team environments. Strong foundation in Data Structures, Algorithms, and Object-Oriented Programming.

CORE SKILLS

Front-End Development: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap 5, Responsive Design, Vite

State Management: Redux, Zustand, Context API, React Query, Axios, React Hooks

UI & Libraries: Chakra UI, Mantine UI, Framer Motion, AOS, React Hook Form, React Router DOM, React Icons, Marked.js, DOMPurify

APIs & Integrations: REST APIs, Microsoft SignalR, Stripe Payment Gateway

Tools & Deployment: Git, GitHub, Vercel, CI/CD

Programming Languages: JavaScript, Python

Database: MySQL

Core Concepts: Object-Oriented Programming (OOP), Data Structures, Algorithms

KEY PROJECTS

Study Group Management System | Team Project

GitHub: https://github.com/Shimaa12Ahmed/Study_Group

- Led front-end development for a real-time study group platform using React.js and modern state management solutions.
- Implemented Role-Based Access Control (RBAC) and protected routing using React Router DOM to secure user access and permissions.
- Integrated Microsoft SignalR to enable real-time notifications and updates, eliminating manual page refresh requirements.
- Developed core collaboration features including group creation, join requests, discussion boards, and file-sharing functionality.
- Built a responsive and interactive user interface using Chakra UI, Framer Motion, and AOS animations.

Hotel Management System | Team Project

GitHub: https://github.com/malakhassan12/Hotel_management_system

- Developed authentication workflows and protected routes to improve application security and user session management.
- Integrated Stripe Payment Gateway to support secure online booking and payment processing.
- Built room browsing, favorites, and review management features using React.js and Mantine UI

components.

- Utilized React Query for efficient server-state management, caching, and API data synchronization.
- Enhanced user experience through responsive design and interactive UI elements.

Markdown Previewer | *Personal Project*

Live Demo: <https://markdown-previewer-git-main-shimaa-ahmeds-projects.vercel.app> |

GitHub: <https://github.com/Shimaa12Ahmed/markdown-previewer>

- Built a real-time Markdown editor supporting GitHub Flavored Markdown using Marked.js.
- Prevented XSS vulnerabilities by sanitizing user-generated content with DOMPurify before rendering.
- Developed a responsive split-pane interface with dark and light mode support using Bootstrap 5.
- Deployed the application on Vercel and implemented continuous deployment workflows.

Random Quote Machine | *Personal Project*

Live Demo: <https://random-quote-machine-eight-gamma.vercel.app> |

GitHub: <https://github.com/Shimaa12Ahmed/random-quote-machine>

- Developed an interactive quote generator using React Hooks and reusable component architecture.
- Implemented dynamic theme switching and responsive layouts to improve accessibility and usability.
- Applied modern React development practices including state management and component reusability.
- Deployed a production-ready version using Vercel.

EDUCATION

Bachelor of Computer Science & Artificial Intelligence (Information Systems)

Capital (Helwan) University, Cairo, Egypt | 2022 – 2027 (Expected)

GPA: 3.61 / 4.00 (Excellent) | **Specialization:** Information Systems

Relevant Coursework: Data Structures, Algorithms, Object-Oriented Programming, Database Management Systems, Web Development
